Supplement Contents

**PLENARY REPORT** ......................................................... 1

**Annex A:** List of Participants ............................................. 88

**Annex B:** Agenda .......................................................... 90

**Annex C:** List of Documents ............................................... 93

**Annex D:** Report of the Sub-Committee on the Revised Management Procedure ........................................ 100

**Annex F:** Report of the Sub-Committee on Bowhead, Right and Gray Whales.................................................. 158

**Annex G:** Report of the Sub-Committee on In-Depth Assessments ............................................................... 176

**Annex H:** Report of the Sub-Committee on the Other Southern Hemisphere Whale Stocks ........................................... 196

**Annex I:** Report of the Working Group on Stock Definition ............................................................... 222

**Annex J:** Report of the Working Group on Non-Deliberate Human-Induced Mortality of Large Whales ............................................................... 236

**Annex K:** Report of the Standing Working Group on Environmental Concerns ............................................................... 248

**Annex K1:** Report of the Working Group to Address Multi-Species and Ecosystem Modelling Approaches ............................................................... 277

**Annex L:** Report of the Sub-Committee on Small Cetaceans ............................................................... 291

**Annex M:** Report of the Sub-Committee on Whalwaching ............................................................... 320

**Annex N:** Report of the Working Group on DNA ............................................................... 329

**Annex O:** Working Group on Scientific Permits ............................................................... 335

**Annex P:** Process for the Review of Special Permit Proposals and Research Results from Existing and Completed Permits ............................................................... 349

**Annex Q:** Report of the Ad hoc Group on Progress Reports and the Online Data Entry Portal ............................................................... 354

**Annex R:** Terms of Reference for Sanctuary Reviews at this Meeting ............................................................... 355

**Annex S:** Trial Approach to Improve the Scientific Committee’s Process for Developing a Consensus Budget Recommendation to the Commission ............................................................... 357

**Annex T:** Email Correspondence Groups and Terms of Reference ............................................................... 359

**Annex U:** Statements on the Agenda ............................................................... 362

**REPORT OF THE EXPERT WORKSHOP TO REVIEW THE JAPANESE JARPA II SPECIAL PERMIT RESEARCH PROGRAMME (SC/65b/Rep02).** ........................................................................ 367

**REPORT OF JOINT WORKSHOP ON PREDICTING SOUNDFIELDS - GLOBAL SOUNDSCAPE MODELLING TO INFORM MANAGEMENT OF CETACEANS AND ANTHROPOGENIC NOISE (SC/65b/Rep03).** ........................................................................ 411

**REPORT OF THE POLLUTION 2020 STEERING GROUP MEETING (SC/65b/Rep05).** ........................................................................ 425

**REPORT OF THE AWMP INTERSESSIONAL WORKSHOP ON DEVELOPING SLAS FOR THE GREENLAND HUNTS (SC/65b/Rep06).** ........................................................................ 433

**REPORT OF THE AWMP INTERSESSIONAL WORKSHOP ON THE IMPLEMENTATION REVIEW FOR NORTH ATLANTIC FIN WHALES (SC/65b/Rep07).** ........................................................................ 459

**REPORT OF THE WORKSHOP ON THE RANGEWIDE REVIEW OF THE POPULATION STRUCTURE AND STATUS OF NORTH PACIFIC GRAY WHALES (SC/65b/Rep08).** ........................................................................ 487

**REPORT OF THE MEETING OF THE IWC-POWER TECHNICAL ADVISORY GROUP (TAG) (SC/65b/Rep09).** ........................................................................ 529

**REPORT OF THE AWMP/RMP JOINT WORKSHOP ON THE STOCK STRUCTURE OF NORTH ATLANTIC COMMON MINKE WHALES (SC/65b/Rep04).** ........................................................................ 543

*Detailed contents for the Plenary Section (pp.1-87) are given on the next page.
PLENARY SECTION: CONTENTS

1-3. Introductory items ................................................................. 1
4. Cooperation with other organisations ......................................... 2
5. Revised Management Procedure (RMP) – general issues (see Annex D).  8
5.1 Use of individual based energetics model .................................. 8
5.2 Relationships between MSYR and MSYR .................................. 8
5.3 Finalise the approach for evaluating proposed amendments to the CLA. 8
5.4 Evaluate the Norwegian proposal for amending the CLA ................. 8
5.5 Other computing matters related to the CLA .............................. 9
5.6 Update ‘Requirements and Guidelines for conducting surveys and Implementations’. 9
5.7 Imbalanced sex ratio in incidental catches ............................... 9
5.8 Work plan .............................................................................. 9
6. RMP – Implementation-related matters ......................................... 10
6.1 North Pacific common minke whales (additional work from completed Implementation Review) .................................. 10
6.2 North Atlantic fin whales (Implementation Review) .......................... 10
6.3 North Atlantic common minke whales (Implementation Review) .......... 10
6.4 North Atlantic sei whales ...................................................... 11
6.5 Western North Pacific Bryde’s whales ....................................... 11
6.6 Updated table of abundance .................................................. 11
6.7 Work plan .............................................................................. 11
7. Non-deliberate human-induced mortality of large whales .................. 11
7.1 Entanglement of large whales .................................................. 11
7.2 Ship strikes ............................................................................ 12
7.3 Marine debris ....................................................................... 14
7.4 Other issues including mortality from acoustic sources .................. 14
7.5 Work plan .............................................................................. 14
8. Aboriginal Subsistence Whaling Management Procedure (AWMP) (see Annex E) ................................................................. 14
8.1 Progress on SL4 development for the Greenlandic hunts ................... 15
8.2 Follow-up work on conversion factors for the Greenlandic hunt .......... 20
8.3 Aboriginal Whaling Management Scheme .................................... 20
8.4 Work plan .............................................................................. 21
9. Aboriginal subsistence whaling management advice (see Annex F) ........ 21
9.1 Bowhead whales off West Greenland ......................................... 21
9.2 North Pacific gray whales ...................................................... 21
9.3 Bering-Chukchi-Beaufort (B-C-B) Seas stock of bowhead whales ....... 22
9.4 Common minke whales off West Greenland ............................... 22
9.5 Common minke whales off Eastern Greenland ............................. 23
9.6 Fin whales off West Greenland ............................................... 23
9.7 Humpback whales off West Greenland ...................................... 23
9.8 Humpback whales off St Vincent and The Grenadines ................. 23
10. Whale stocks ......................................................................... 23
10.1 Antarctic minke whales (see Annex G) ..................................... 23
10.2 Southern Hemisphere humpback whales (see Annex H) ............... 26
10.3 Southern Hemisphere blue whales (see Annex H) ......................... 29
10.4 Distribution of baleen and toothed whales in the Antarctic relative to spatial and environmental covariates 31
10.5 In-depth Assessment of North Pacific sei whales .......................... 31
10.6 Gray whales in the western North Pacific ................................... 32
10.7 Southern Hemisphere right whales ......................................... 32
10.8 North Atlantic right whales ................................................... 33
10.9 North Pacific right whales .................................................... 33
10.10 North Atlantic bowhead whales .............................................. 33
10.11 Okhotsk Sea bowhead whales .............................................. 34
10.12 Arabian Sea humpback whales .............................................. 34
10.13 International cruises ............................................................. 34
10.14 Sperm whales ..................................................................... 37
10.15 Overview of work plan .......................................................... 37
11. Stock definition (see Annex I) ...................................................... 37
11.1 Guidelines for DNA data quality and genetic analyses ................. 38
11.2 Statistical and genetic issues related to stock definition ................. 38
11.3 Testing of Spatial Structure Models (TOSSM) ............................ 39
11.4 Terminology and unit-to-conserve .......................................... 39
11.5 Work plan .............................................................................. 39
12. Environmental concerns (see Annex K) .......................................... 39
12.1 State of the Cetacean Environment Report (SOCER) ...................... 39
12.2 Pollution .............................................................................. 39
12.3 Cetacean Emerging and Resurging Diseases (CERD) and mortality events. 41
