At-sea Detection of Derelict Fishing Gear

Editors: Kris McElwee and Carey Morishige
Contributing Editor: Mary Donohue
Contents

At-sea detection of derelict fishing gear in the North Pacific: An overview  C. Morishige and K. McElwee ... 1

A strategy for detecting derelict fishing gear at sea  K. McElwee, M.J. Donohue, C.A. Courtney, C. Morishige and A. Rivera-Vicente ......................................................... 7

At-sea detection of marine debris: Overview of technologies, processes, issues, and options  T.H. Mace ... 23

Numerical modeling with application to tracking marine debris  J.T. Potemra ........................................ 42

Pathways of marine debris derived from trajectories of Lagrangian drifters  N. Maximenko, J. Hafner and P. Nüler ........................................................................................................ 51

Airborne sensors for detecting large marine debris at sea  T.S. Veenstra and J.H. Churnside .................... 63

Marine debris from the Oregon Dungeness crab fishery recovered in the Northwestern Hawaiian Islands: Identification and oceanic drift paths  C.C. Ebbesmeyer, W.J. Ingraham, J.A. Jones and M.J. Donohue ...... 69
