Coordinating and fostering atmospheric chemistry research towards a sustainable world

Issue No. 48 • November 2012

Atmospheric CHEMISTRY
IN THE ANTHROPOCENE

www.igac2012.org **17-21 SEPTEMBER 2012 • BEIJING**

SOCIETY **CHEMISTRY** **CLIMATE**
社会 **化学** **气候**

The banner features a blue background with a smaller IGAC logo on the left. The main title is in large white and blue letters. Below the title, the website and dates are listed. The bottom section is divided into three vertical panels: a cityscape (SOCIETY/社会), a molecular model (CHEMISTRY/化学), and a cloudy sky (CLIMATE/气候).

The IGAC biennial science conference "Atmospheric Chemistry in the Anthropocene" took place in Beijing, China 17-21 September 2012. This issue highlights six young scientists who won the Young Scientists Program Poster Competition for each session.

IGAC was initiated by the Commission on Atmospheric Chemistry and Global Pollution (CACGP) and is a Core Project of the International Geosphere-Biosphere Program (IGBP). The IGAC Seattle International Project Office is sponsored by the US National Science Foundation (NSF), National Oceanic and Atmospheric Association (NOAA), and National Aeronautics and Space Administration (NASA). The IGAC Taipei Project Office is funded by Academia Sinica, Taipei. The IGAC Rome Project Office is supported by the Italian National Research Council and by the European Commission Network of Excellence (ACCENT Plus). Any opinions, findings, and conclusions or recommendations expressed in this newsletter are those of the individual author(s) and do not necessarily reflect the views of the responsible funding agencies.
