Journal of Coastal Research

VOL. 28, NO. 5 (pages 993–1318) September 2012
ISSN 0749-0208

CONTENTS

LETTERS TO THE EDITOR
On the Continued Cost of Upkeep Related to Groins and Jetties .............................................. L.J. Pietrafesa iii

RESEARCH PAPERS
Modeling Potential Coastal Vegetation Response to Sea Level Rise and Storm Surge on Estuarine Peninsulas ................................................................. Rosaleen Grace March and Elizabeth Hovey Smith 993
Distribution of Benthic Macroinvertebrates in Relation to Environmental Variables across the Yangtze River Estuary, China ....................................... Min Chao, Yumrong Shi, Weimin Quan, Xinqiang Shen, Chuanguang An, Qi Yuan, and Houjian Huang 1008
Tsunami Hazard Area Predicted by Probability Distribution Tendency ..................................... Yong Cheol Kim, Minha Choi, and Yong-Sik Cho 1020
Habitat Variation in Vernal Pool Ecosystems on Both Sides of the Strait of Gibraltar ............ Ana Lumbrahas, Hikmat Tahiri, Carla Pinto-Cruz, Cristina Pardo, and José A. Molina 1032
Video-Based Detection of Shorelines at Complex Meso–Macro Tidal Beaches ..................... Rafael Almar, Roshanka Ranasinge, Nadia Sénéchal, Philippe Bonneton, Dano Roelvink, Karin R. Bryan, Vincent Marieu, and Jean-Paul Parisot 1040
Development of an Operational Nearshore Wave Forecast System for Puerto Rico and the U.S. Virgin Islands ............................................................... Carlos M. Anselmi-Molina, Miguel Canals, Julio Morell, Juan Gonzalez, Jorge Capella, and Aurelio Mercado 1049
Short-Term Sedimentation Processes and Accretion Rates in the Suncheon Bay Estuarine Marsh, South Korea ............................................................. Eui-Joon Park, Keun Bae Yu, Cha Yong Ku, Norbert P. Psuty, Dachyun Kim, and Young Ho Shin 1057
Semiannual Kelvin Waves in the Northeastern Tropical Pacific .................................................... Ana Laura Flores-Morales, Alejandro Parés-Sierra, and Felipe Gómez-Valdivia 1068
Hydrodynamics and Marine Optics during Cold Fronts at Santa Rosa Island, Florida ................. Timothy R. Keen and Robert H. Stavn 1073
Long-term Decline of a Fringing Coral Reef in the Northern South China Sea ....................... Meixia Zhao, Kefu Yu, Qiaomin Zhang, Qi Shi, and Gilbert J. Price 1088
Surface Roller Modeling for Mean Longshore Current over a Barred Beach in a Random Wave Environment ........................................................... Junwoo Choi, Jong-In Lee, and Sung Bum Yoon 1100
Hydrodynamics of the 2004 Florida Hurricanes ........................................................................ Scott C. Hagen, Peter Bacopoulos, Andrew T. Cox, and Vincent J. Cardone 1121
Evaluation of Dune Rehabilitation after 95 Years by Comparison of Vegetation in Disturbed and Natural Sites ............................................................... Marco Landi, Cecilia Ricceri, and Claudia Angiolini 1130
The March 2011 Tohoku Tsunami and Its Impacts along the U.S. West Coast ............................ Jonathan C. Allan, Paul D. Komar, Peter Ruggiero, and Robert Witter 1142
Sea-Level Rise and Subsidence/Uplift Processes in the Mexican South Pacific Coast ................. Luis A. Buenfil-López, Minerva Rebollar-Plata, Norma P. Muñoz-Sevilla, and Bruno Juárez-León 1154
Impacts of Deep Waterway Project on Morphological Changes within the North Passage of the Changjiang Estuary, China .............................................. Lingzhi Pan, Pingxing Ding, and Jianzhong Ge 1165
Macrotidal Beach Processes Dominated by Winter Monsoon: Byunsan, West Coast of Korea .......... Hee J. Lee and Jeseon Yoo 1177
Spatial Dynamics and Zoning of Coastal Land-Use Change along Bohai Bay, China, during 1979–2008 ........................................................................ Gaoru Zhu, Xuegong Xu, Zongwen Ma, Lifen Xu, and John H. Porter 1186
The Response of Photosystem II to Soil Salinity and Nutrients in Wetland Plant Species of the Northwestern Gulf of Mexico ............................................. Eric N. Madrid, Anna R. Armitage, and Antonietta Quigg 1197
Observation of Upper-Ocean Mixing in the Region West of the Luzon Strait in Spring ................ Shuwen Zhang, Lingling Xie, Ruixue Cao, and Hui Zhao 1208
Assessment of the Nature and the Rate of Coastal Erosion on the Mount Cameroon Coastal Landscape, Southwest Region, Cameroon ........................................ Mbongowo Joseph Mbu, Raoul Étongué Mayer, and Tchaw Paul 1214

(continued on p. 1318)
