Volume 134 Number 3 1999

Stone JR: Using a mathematical model to test the null hypothesis of optimal shell construction by four marine gastropods 397

Smith GJ, Muscatine L: Cell cycle of symbiotic dinoflagellates: variation in G₁ phase-duration with anemone nutritional status and macronutrient supply in the *Aiptasia pulchella*-*Symbiodinium pulchrorum* symbiosis 405

Pati AC, Belmonte G, Ceccherelli VU, Boero F: The inactive temporary component: an unexplored fraction of meiobenthos 419

Widder EA, Johnsen S, Bernstein SA, Case JF, Neilson DJ: Thin layers of bioluminescent copepods found at density discontinuities in the water column 429

Utyushev RN, Levin LA, Gitelson JI: Diurnal rhythm of the bioluminescent field in the ocean epipelagic zone 439

Bosch I, Slattery M: Costs of extended brood protection in the Antarctic sea star, *Neosmilaster georgianus* (Echinodermata: Asteroidea) 449

Friedrich AB, Merkert H, Fendert T, Hacker J, Proksch P, Hentschel U: Microbial diversity in the marine sponge *Aplysina cavernicola* (formerly *Verongia cavernicola*) analyzed by fluorescence in situ hybridization (FISH) 461

Kuwata A, Takahashi M: Survival and recovery of resting spores and resting cells of the marine planktonic diatom *Chaetoceros pseudocurvisetus* under fluctuating nitrate conditions 471

Langmead O, Chadwick-Furman NE: Marginal tentacles of the corallimorpharian *Rhodactis rhodostoma*. 1. Role in competition for space 479

Langmead O, Chadwick-Furman NE: Marginal tentacles of the corallimorpharian *Rhodactis rhodostoma*. 2. Induced development and long-term effects on coral competitors 491

Pakhomov EA, Froneman PW: Macroplankton/micronekton dynamics in the vicinity of the Prince Edward Islands (Southern Ocean) 501

Muniz P, Pires AMS: Trophic structure of polychaetes in the São Sebastião Channel (southeastern Brazil) 517

Harper RD, Case JF: Disruptive counterillumination and its anti-predatory value in the plainfish midshipman *Porichthys notatus* 529

Pan Y, Cembella AD, Quilliam MA: Cell cycle and toxin production in the benthic dinoflagellate *Prorocentrum lima* 541

Jacobsen HP, Stabell OB: Predator-induced alarm responses in the common periwinkle, *Littorina littorea*: dependence on season, light conditions, and chemical labelling of predators 551

Jonsson PR, Berntsson KM, André C, Wängberg S-Å: Larval growth and settlement of the European oyster (*Ostrea edulis*) as a function of food quality measured as fatty acid composition 559

Hassett RP, Boehlert GW: Spatial and temporal distributions of copepods to leeward and windward of Oahu, Hawaiian Archipelago 571

Moens T, Verbeeck L, Vincx M: Feeding biology of a predatory and a facultatively predatory nematode (*Enoploides longispiculus* and *Adoncholaimus fuscus*) 585

Grobe P, Lüter C: Reproductive cycles and larval morphology of three Recent species of *Argyrotheca* (Terebratellacea: Brachiopoda) from Mediterranean submarine caves 595
