

**Non
Detriment
Findings
For The**

Queen Conch
(Strombus gigas)

In

Colombia

**Prada, Castro, Taylor,
Puentes, Appeldoorn, Daves**

Table of Contents

Executive Summary	7
Resumen Ejecutivo	11
1. Biology and Ecology	17
1.1 Background Information on the Taxa	18
1.2 Biological Data	20
1.2.1 Scientific and Common Names	20
1.2.2 Distribution	20
1.2.3 Biological Characteristics	21
1.2.3.1 Habitat Types	23
1.2.3.2 Ecosystem Role	24
1.2.4 Population	24
1.2.4.1 Global Population Size	24
1.2.4.2 Global Population Trends	26
1.2.5 Conservation Status	28
1.2.5.1 Global Conservation Status	28
1.2.5.2 National Conservation for Colombia	29
1.2.5.3 Main Threats Within the Case Study Country	29
1.3 Species Management Within Colombia	29
1.3.1 Management Measures	29
1.3.1.1 Management History	29
1.3.1.2 Purpose of the Management Plan in Place	30
1.3.1.3 General Elements of the Management Plan	30
1.3.1.4 Restoration or Alleviation Measures	30
1.3.2 Monitoring System	31
1.3.2.1 Methods Used to Monitor Landings	31
1.3.2.2 Confidence in the Use of Monitoring	32
1.3.3 Legal Framework and Law Enforcement	32
1.4 Utilization and Trade of Range in Colombia	32
1.4.1 Type of Use (Origin) and Destinations (Purposes)	32
1.4.2 Harvest	33
1.4.2.1 Harvesting Regime	33
1.4.2.2 Harvest Management	33
1.4.3 Legal and Illegal Trade Levels	34
2. Non-Detrimental Findings Procedure (NDF's)	37
2.1 Is the Methodology Used Based on the IUCN Checklist for NDF's?	38
2.2 Criteria, Parameters and/or Indicators	38
2.3 Main Sources of Data	40
2.4 Evaluation of Data Quantity and Quality for the Assessment	40
2.5 Main Problems, Challenges or Difficulties Found on the Elaboration of NDF	40
2.6 Recommendations	41
3. References	46
